CLP11,CLP13 & LDP001 haul [dead attached] AC4301 on its delivery run from Melbourne to Adelaide on 3MA6 P&O intermodal through Bridgewater SA on August 19th 2009. Photo Nathan Pyle

This the 100th edition of West Australian Railscene e-Mag that commenced with the first issue on January 5th 2009. In the following 89 weeks 100 e-mags have been published that features the work of 36 different photographers with photos taken in West Australia, South Australia, New South Wales and Queensland also in Ontario Canada. Photos taken in WA have covered the rail scene from the giant trains run by the Pilbara Miners; Rio Tinto, BHPBIO and FMG to a little work train on a jetty, from Esperance in the south east, Leonora in north east, Kalgoorlie and the trans line, Geraldton and the Mid West, Collie and Bunbury in the South West to the suburbs of Perth. Over the last 21 months Rio Tinto, BHPB Iron Ore and ARG have had new locomotives delivered, Transperth more EMUs delivered and QR National commencing operations into Western Australia. Production of this e-Mag has only been possible by having people willing to supply photos and information on what is happening in an ever changing world. In the next few years expansion of iron ore exports will see new mines in the Yilgarn and Mid West that will see more locomotives and rolling stock arriving. This e-Mag will cover the changes as they take place. Everyone I thank you for your support as photographers or contributors and those who have visited the web site to access the e-Mag.

NR51 wrecked in the Curtin derailment with wrecked crew car RZAY289 still on site February 15th 2009 with locomotive to be eventually repaired while crew car was scrapped. Photo John Bollans

PTA Kalgoorlie Prospector service by passing ARG Q4002 on 6055 empty grain, SCT locomotive SCT002 at Meckering on November 12th 2009 three different items, three different owners. Photo Dusty Wade

Photo Justin Brown

CM40-8M 5664 & SD70MACe 4328 approach car dumper one at Nelson Point on May 8th 2010 with load of Yandi fines to dump.
Photo Toad Montgomery

I selected all the photos for this special edition I have not used any of my own photos for I felt I could be open to bias. This is a selection of about 500 photos that have been published over the past 21 months and I hope you enjoy them.
