Duplication of Robe River Deepdale line between Cape Lambert and Western Junction continues with the level crossing over Great Northern Highway to be replaced by a bridge. Rebuilding and greatly expanding Robe River Cape Lambert yard also continues that has seen opening of road bridges over the huge yard. P2517 re-entered service on November 5th running engine and wagons to Narngulu. Preserved brakevan and coach that had been stored on the shunting next at end of Midland loop were removed safer storage on November 22nd. EMU set 096 was bogie converted and delivered to PTA on November 14th. LZ3105 ran out on 3PM1 on 19th to Adelaide returning on 5MP1 on November 24th.
