Q4002 & ACC6030 on 1414 empty ore with ACC6032 & ACB4405 DPU is bypassed by SCT001 & SCT013 on 6MP9 SCT Melbourne Perth freight at Binduli October 4th.

Photo Peter Donaghy

Two of the second series of CBH locomotives CBH23 and CBH24 arrived back in Geraldton on October 25th, following the usual few weeks break when no grain trains ran there. NRs have seen extensive use on MRL Polaris ore trains, with each set being NR and MRL in mid October. AK cars again ran in WA mid month going to Esperance, Leonora, Forrestfield and on to suburban area, Fremantle, Kwinana and East Perth. Wrong line running and Train Order working has been a daily occurrence with re-railing and other works being undertaken in the Avon Valley for most of the month. ADP101 was returned to traffic following being at UGL Bassendean for attention on 9th. Only two ACA's remain in WA ACA6010 and ACA6011 both on Esperance ore trains, ACA6012 converted back 6012 on 2nd, ACA6002 was converted back on 30th. The start up of Roy Hill as the fourth railroad into Port Hedland has been delayed with its first ore now not due to be exported till mid November. B series set 110 was delivered to PTA on 9th while EMU set 111 arrived on 18th being hauled to Midland for bogie conversion on 24th.
