Q4005 & DC 2205 run 6029 sulphur out of West Kalgoorlie to Malcolm 9/12.

Photo Peter Donaghy

These are the last issues of West Australian Rails that I will publish there will be at least two issues this month maybe even three that will represent the end of a journey in railroad magazine publishing that started more than 40 years ago. In that time I have contributed photos and articles to local and international magazines have been involved in editing and publishing written magazines finally for last nine years have published this e-Mag on railroad happenings in Western Australia. It has been an awesome journey where I been touched by many great writers and photographers. All things must come to an end and my involvement in railroad magazine production will now end. I thank all those who believed in me and thought I could contribute, those who published my photos and articles finally those from across the world who shared their photos in this e-Mag. I am ever so grateful to those in Canada who introduced me first to electronic railroad magazines then showed me how to produce an electronic magazine that was never meant to be printed. This will not be the end of this magazine completely as it will continue with a new publisher that will be announced on my final e-Mag. Thank you all for being part of my journey.
