TRAIN TIME—TABLE REFERENCE SYMBOLS

Express, Passenger, Rail Motor and Mixed trains must stop at stations where so scheduled in the Time-tables. Where the times of arrival and departure of trains are not both stated, the times shown are of those of departure from stations.

Where the time for the train is shown without the addition of one of the undermentioned symbols or other special reference, a definite stop must be made.

Where the following standard symbols *, ∇, d, f, ††, *, #, ♦ are utilized with or without, as the case may be, a time being shown, they indicate how the train shall be dealt with at the particular station or stations, e.g., whether non-stop, or to stop in certain circumstances.

The symbols referred to and their application to the time-tables are as follows:—

* Trains will not stop to pick up or set down passengers at stations where the train schedule is so marked, or where this symbol occurs without an accompanying time.

∇ Indicates that the train shall only require to stop at the station or Rail Motor Stopping Place concerned in the following circumstances:

- (1) When signalled from the station to stop, indicating that there are passengers, vangoos and/or mails to be entrained.
- (2) And/or when the train is conveying passengers, vangoos or mails for the station. The Guard is responsible for informing the Engineman that there are passengers, vangoos, or mails to be discharged. If no conductor on train, the Guard must make the necessary inquiries among the passengers at the previous stopping station. If no Guard be employed on a Rail Motor, the Engineman must make the necessary inquiries.

d Set down only.

u. Picks up only.

†† Trains so marked run only if required. Special advice will be issued by the Chief Operations Manager, Chief Train Controller, District Senior Train Controller or Depot Stations when the running of such trains is necessary.

• Indicates that the train must when practicable be despatched from the station concerned at the earlier time shown.

π Train stops to set down only, if required, but not to pick up passengers.

Not advertised.

♦ Indicates that the Road Coach shall only stop when signalled to do so by an intending passenger and/or when conveying passengers for that stop.

▲ Reservations are compulsory by this train. Bookings must be made through the Central Reservation Bureau or Regional Booking Centre.

TIME ALLOWANCE IN PASSENGER TRAIN SCHEDULES

FOOTNOTE REFERENCES AND METHOD OF NUMBERING TRAIN TIME-TABLES ETC.
Down Trains are given odd and Up Trains even numbers (Suburban Lines excepted).

Footnote references are indicated by Capital letters A, B, C, etc., shown after the figures in Train Schedules, such as 0945Y shown for 8339 train at Seymour. (See page 46).

The lines above the departure time and figures at side indicate the station appointed for trains to meet or pass each other, also the numbers of the trains to be so met or passed.

For example, on page 51, appears the following:

DOWN		9303 Fast Goods Tue. to Sat.
BENALLA	arr.	09 32
"		—8305
"	dep.	10 35

The above example indicates:—

(1) No. 9303 (Up) crosses No. 8305 (Down).

**GENERAL INSTRUCTIONS
LOADS OF GOODS TRAINS**

Schedule Loads:—The schedule loads laid down for Goods trains, on both Broad and Standard Gauge lines may be exceeded by the following authorised overloads:—

When hauled by "B", "C", "L", "S" or "X" Class Locomotive - 25 tonnes.

When hauled by a "H", "T" or "Y" Class Locomotive — 15 tonnes.

A train being hauled by locomotives working in multiple is authorised to have an overload equivalent to the total of that permitted to be taken by each of such locomotives.

EXAMPLES:

(A) Train hauled by "T" ? "T" locomotives in multiple — 30 tonnes.
 — Permitted overload

(B) Train hauled by "B" ? "T" locomotives in multiple — 40 tonnes.
 — Permitted overload

(C) Train hauled by "X" ? "B" locomotives in multiple — 50 tonnes.
 — Permitted overload

Double-headed loads.—The tonnage load which may be hauled by two locomotives is the combined load of the locomotives. See page 65.

The general conditions governing locomotives assisting in front of trains and the Lines on which double-heading is permitted are shown on page 109.

Parcels Coaches and Motor Coaches.—(i) When Parcels Coaches and Motor Coaches, except Nos. 113 "M" and 156 "M" are used for hauling Goods, Stock, or Horse-boxes, the number of vehicles hauled must not exceed eight (8) including brakevan. The vehicle limit for 113 "M" and 156 "M" is governed by the tonnage set out in clause (ii).

(ii) The maximum tonnage for all Parcels Coaches and Motor Coaches (except as set out in clause (iii)) must not exceed the following:—

Ruling Grade.	Trailing Load.	Ruling Grade.	Trailing Load.
Level	410 tonnes	1 in 50	125 tonnes
1 in 200	285 "	1 in 40	100 "
1 in 100	215 "	1 in 30	70 "

(iii) When Motor Coaches Nos. 113 "M" or 156 "M" are used for shunting purposes in Jolimont Yards a maximum trailing load of 560 tonnes may be hauled.

Diesel Fordson Tractors.—Maximum load hauling or propelling on level is 230 tonnes. The maximum load on grades at a speed of 10 kilometres per hour is as follows:—Grade 1 in 50, 30 tonnes; 1 in 75, 65 tonnes; 1 in 100, 85 tonnes; 1 in 110, 90 tonnes; 1 in 200, 150 tonnes. See page 109.

MOMENTUM GRADES.

Attention is particularly directed to the instructions regarding momentum speeds included in the footnotes to the various Load Schedules.

It must be remembered that the speeds specified as being necessary to ascend certain grades are subject to any special speed restrictions for the time being in force, and if the prescribed speed cannot be attained because of some restriction of the kind, the load must not exceed that which the locomotive could haul over the grade without the aid of momentum.

Distance Shown in Load Schedule Footnotes.—The distance quoted in the footnotes is in every instance in accordance with that shown in the Grades Book.
