GENERAL NOTES

A copy of every new issue of the WORKING TIME TABLE BOOK, or section of the Book, or amendment thereto, is to be supplied to all concerned in accordance with Regulation 8.

It is imperative that each Stationmaster carefully check this Time table, regarding the timing of trains, crossing arrangements, etc., so far as his own station or the stations he supervises are concerned. He will be held responsible for promptly bringing under notice of the Section Manager, Time tables Co-ordination and the appropriate Regional Operations Manager, any inaccuracies.

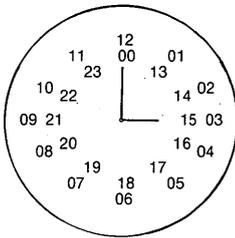

PASSENGER TRAIN AND RAIL MOTOR RUNNING. Depot stations must obtain full particulars from Guards of the late running of Passenger Trains and Rail Motors. In the event of any time being lost by the locomotive, the cause, also locomotive number and class, must be ascertained from the Driver, and the Train Controller advised. Drivers will require to explain the cause of any time lost that in the aggregate exceeds the time gained on the journey.

When a Passenger train or Rail Motor is blocked at a roadside station the Train Controller must be advised by the Stationmaster at the station at which the block occurred, and if the train that caused the block was running late the cause of such late running (whether overtime in section or other cause) must be given if ascertainable.

SUBURBAN PASSENGERS MUST NOT TRAVEL BY COUNTRY TRAINS.

Country trains to and from Melbourne shown in the Working Time table are not available for inter-station passenger travel within the suburban electrified area unless otherwise specified in the Time table.

One-class suburban ticket holders are not permitted to travel in first class carriages.

24 HOUR TIMINGS

24 hour timings are used throughout this Time table and associate Train Running Documents.

The hours are numbered consecutively from 01 to 23 then 00 (as shown on the dial). Instead of a.m. and p.m., 12 is added to the hours after midday, thus 1.00 p.m. becomes 13 00, 5.00 p.m. becomes 17 00, 9.00 p.m. becomes 21 00 (or 21 19 or 21 47 according to the minutes after the hour). Midnight is 00 00 and times between midnight and 1.00 a.m. are shown by the figures 00 01 to 00 59.

Note—All quotations of train times to the travelling public should still be in 12 hour a.m. and p.m. times. Public Time-tables will continue to be shown in 12 hour a.m. and p.m. times.

NUMBERING OF COUNTRY TRAINS

The numbers allocated to the various Country Regions for trains that pass through the MetRail Area are as shown hereunder:—
